CLEAR PVC SWING DOORS

COLDROOM PARTS & SEALS

**MANUFACTURERS AND SUPPLIERS OF
QUALITY PRODUCTS**

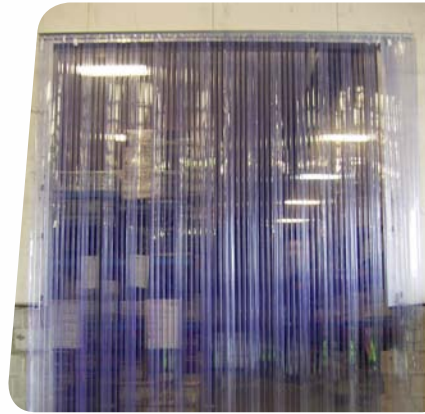

Clear PVC Strip Doors

Our Clear PVC Strip Doors are available in a diverse range of clear flexible PVC strips. They provide an economical and simple installation solution for isolating, partitioning or sealing any area. With this products unique see through and temperature isolation properties it continues to provide outstanding results in a diverse range of environments and applications. Constructed with an aluminium extrusion and clear flexible PVC strips, these doors produce outstanding results from reducing electricity consumption in Coolrooms and air-conditioned rooms to dust and sound control.

- Reduce Electricity Consumption
- Pest Control
- Hygiene
- Quality Construction
- Easy Installation

Strip Door Installation

Installation is usually very quick and simple as they can be secured with self tapping, self drilling screws, rivets or bolts allowing most installations to be completed within minutes.

Clear Flexible PVC Swing Doors

These doors are ideal for all Industrial and Commercial applications including Factories, Kitchens, Food Processing Plants, Transport Terminals, Retail Stores, Supermarkets, Cold Storage and Hospitals, etc. They keep out draughts, dust, pests and continue to provide outstanding results in new applications using their safety, hygiene, temperature and acoustic isolation properties. With their quality steel frame construction together with tough resilient clear PVC sheet these doors are designed for customer satisfaction.

Features

Almost noiseless in operation these Flexible PVC Doors can be opened with a light push of the hand or trolley and as a standard feature will automatically close after entry. Being clear they give an unrestricted view of oncoming traffic, providing safety.

Optional Features

- **Lock Open:** When required these unique plastic doors will remain open in the 90° position for rapid bulk loading convenience.
- **Galvanizing:** is available for applications in Coldrooms or other wet environments.
- **Powder Coating:** provides a smooth finish and is available in a variety of colours for applications which require colour matching.

Standard Finish

Hammer Tone Grey Enamel Paint.
